Human Resource Manager,

Delhivery

**Respected HR:**

I am a final year student from Krishna Institute of Engineering and Technology, pursuing B.Tech in Computer Science and Engineering with an aggregate of **80%**. I am writing to express my interest for Full Stack Developer Position of your esteemed organization. Currently I am working as a Full Stack Developer on a **RESTful API** named **BOOK MART** on **MEAN Stack**. I have also successfully completed many other applications using **MEAN Stack**.

I am an active member of College Technical Team KIET LMS that has deployed and manages intranet **Library System** of KIET Group of Institutions involving KSOP (Kiet School of Pharmacy), KSOE (Kiet School of Engineering) and KSOM (Kiet School of Management) that deals with near about lakhs of books and approx. 5 thousand students and faculties. I have also successfully deployed Library Software for **BJP** party's first ever Digital library at their BJP headquarter.

I possess strong extra-curricular background. I also have technical expertise in C, Core Java, PHP with good knowledge of Data Structures. My other accomplishments and certifications are highlighted in the resume which closely align with Full Stack Developer Position.

I am waiting for your response, once you reviewed my qualifications.

Thanking you and looking forward to working with you.
